

PRODUCT INFORMATION

The range of Nylon rivets are great for attaching asset tags and labels to plastic pillars and cabinets. Much safer to use near electrical circuits and provide a corrosion and vibration resistant solution. There are three types to choose from, push rivets, blind pop rivets and truss head rivets.

FEATURES

NYLON PUSH RIVETS

- Reusable, two-part construction
- Convenient thumb head
- Three sizes available
- No tools required

NYLON BLIND POP RIVETS

- Three leg design to securely lock in place
- Requires 'plastic rivet' gun

NYLON TRUSS RIVETS

- Able to be used in multi-thickness applications
- Just requires a hammer to tap in position
